NetShore

People at NetShore don't just build product — we craft the kind of experience that has empower the Europe's largest B2B e-commerce solution.

Job Description

7+ years of frontend or full-stack experience of building web applications with following skills:

Soft skills

- Excellent time management abilities
- Curiosity to learn
- Excellent communication and interaction skills; ability to work in a team setting
- Take complete control of a feature from conception to launch.
- An acute sense of when a feature "works" and when it can be improved
- Willingness to mentor peers in order to build a stronger team

Technical skills

- Experience developing responsive, component-based web applications using modern JavaScript front-end frameworks (e.g. VueJS)
- Capability to bring cutting-edge industry techniques and technologies to the table and advocate for their value
- Concentrate on coding standards and code quality.
- Believe in the creation of valid CSS and (also semantic) HTML.

In this role, You will

- Collaborate with a diverse group of people, giving and receiving feedback, to build innovative experiences
- Setting standards for code and performance
- Deliver a scalable user experience(UX) in close collaboration with product owners
- Participate in peer code reviews and Agile development activities
- Proactively identify technical debt and product areas that require attention or improvement
- Collaborate with product owners, scrum masters, and other developers to deliver a quality product using tools such as JIRA and GIT.

Engineering details

For efficient delivery, we rely on Kanban-based workflow,
push for rapid release, and use modern tools:

1. Java 11 (Backend development)
2. ES6/Typescript(JS development)
3. LESS (CSS Development) - less is more
4. VueJS (JS framework)
5. GIT (Source control) - everything safe ☺
6. Gerrit (code-reviews) - care each other
7. Jenkins (Build, Test & deploys) - party

WHY NETSHORE

From the first day, you will grow professionally, and take the next steps
toward becoming an expert in e-commerce and frontend technologies.
